Data Engineer | ETL/ELT & Scalable Architectures Specialist

Data Engineer with 5+ years of experience across fintech, media, and consulting. Specializing in designing scalable data architectures (Medallion, Data Mesh) and developing cloud-native ETL/ELT pipelines. Expert in Python, SQL, dbt, BigQuery, and Airflow, with a proven track record of delivering end-to-end solutions—from data extraction and transformation to modeling and visualization for strategic decision-making.

PROFESSIONAL EXPERIENCE

DATA ENGINEER - PULPPO

Dec 2025 - Presente

- Centralized operational data (MongoDB, HubSpot, Allegra) into a unified Data Warehouse.
- Designed and implemented a Medallion architecture to ensure scalability and data governance.
- Developed robust ETL/ELT pipelines using Python, dbt, and SQL.
- Architected data models to support strategic reporting across OKRs, Finance, and Sales.

SSR DATA ENGINEER - ACCENTURE (MERCADO LIBRE)

Jan 2024 - Dec 2025

- Designed and optimized ETL pipelines in BigQuery leveraging Data Mesh architecture..
- Partnered with stakeholders to define requirements and deliver custom-built solutions.
- Deployed automated anomaly detection and alerting systems to ensure data integrity.
- Handled large-scale data storage and file management at scale within Google Cloud Storage.

JR DATA ENGINEER - PREXCARD

Nov 2022 - Dec 2023

- Designed and deployed interactive Tableau dashboards to deliver actionable business insights.
- Orchestrated automated data extraction and reporting workflows using Python and Airflow.
- Developed Excel-based business reports integrated with SQL databases.

JR DATA ANALYST - RADIO MITRE

May 2022 - Nov 2022

- Developed BI dashboards using Power BI and Tableau.
- Managed relational and non-relational databases (MySQL, MongoDB).

JR DATA VISUALIZATION & REPORTING - ACCENTURE

Jan 2021 - Apr 2022

- Developed interactive dashboards in Tableau and QlikView.
- Developed ETL processes in SQL Server.
- Task automation with Python.
- Collaborated within cross-functional teams under Agile methodologies.

ACADEMIC BACKGROUND

- B.S. in Economics - Universidad de Buenos Aires (UBA) (In progress)

LANGUAGES

- Spanish - Native
- English - Advance (Cambridge FCE Certified, 2014).

TECHNICAL SKILLS

- Languages: Python, SQL
- Technologies: Airflow, dbt, Snowflake, BigQuery, GCP, GitHub, PostgreSQL, MongoDB.
- BI & Visualization: Tableau, Power BI, QlikView.
